## **1.0 INTRODUCTION**

### **1.1 IEEE INCORPORATION**

---

The Institute of Electrical and Electronics Engineers, Inc. (IEEE) is incorporated under the New York State Not-for-Profit Corporation Law. The text of that law changes from time to time; the IEEE Executive Director should be consulted prior to taking any action, which relates to that law.

### **1.2 INSTITUTE GOVERNMENT**

---

The policies, procedures, and regulations by which IEEE and IEEE Member and Geographic Activities (MGA) are governed are embodied in the following documents. The IEEE Certificate of Incorporation legally establishes IEEE. The IEEE Constitution, which can be approved and amended only by the voting members of IEEE, contains IEEE's fundamental objectives and organization. Implementation of the Constitutional provisions, in specific organizational structures and procedures, is entrusted to IEEE Bylaws, which are approved and amended by the IEEE Board of Directors (BoD). The IEEE Policies contain more detailed statements of specific policies, objectives, and procedures which are approved by the IEEE Board of Directors. The purpose of the MGA Operations Manual published herein, is to provide more detailed statements of specific Regional Activities' objectives and procedures than are appropriate for inclusion in the other four documents. Statements of MGA operations are approved and amended by the IEEE MGA Board.

The precedence of these documents should be remembered by all those engaged in IEEE management duties. IEEE Bylaws shall not be in conflict with the New York Not-For-Profit Corporation Law, the IEEE Certificate of Incorporation, or the IEEE Constitution. IEEE Policies must conform to the provisions of all these documents. The MGA Operations Manual shall conform to and not conflict with the provisions of the IEEE governing documents cited above. If, having consulted these documents, questions of procedure or interpretation remain, inquiries should be made to the Managing Director – MGA or the Executive Director of IEEE.

### **1.3 OBJECTIVES**

---

To achieve IEEE objectives, Regional activities are directed toward developing and maintaining, through sound administrative practices, an organization of geographically-defined member organizational units committed to the advancement of the theory and practice of electrical, electronics, communications, and computer engineering, as well as computer science, the allied branches of engineering, and the related arts and sciences and technologies and their application. Subject to applicable laws, it is the policy of IEEE to accept as members technically qualified individuals of any nationality.

To accomplish this objective, IEEE:

- A. Encourages establishment of organizational units, such as Sections, Chapters, Geographic Councils, Student Branches, and Affinity Groups, to provide a local forum for members to meet and exchange views on technical, educational, professional, or other areas of interest.

- B. Ensures that members are aware of and have access to the two-way channel of communication that is maintained – via the Region, Section, Chapter, Geographic Council, Student Branch, and Affinity Group networks – between the members and the IEEE’s elected and appointed officials.
- C. Encourages the utilization of existing or development of new educational activities in cooperation with the Educational Activities Board in meeting the educational needs of the membership.
- D. Encourages close cooperation between the Student Branches and Sections.
- E. Encourages holding technical meetings and conferences at the Region, Section, Geographic Council, or Chapter level, either on an individual or co-sponsored basis.
- F. Encourages members, as private individuals, to cooperate with representatives of government and national and international organizations to provide assistance in IEEE’s fields of interests.
- G. Offers members the opportunity to become involved in professional activities.
- H. Encourages the Regions, Sections, Geographic Councils, Chapters, Student Branches, and Affinity Groups to promote IEEE membership.

Revisions to the Objectives, as contained in this manual, require the review and approval of the IEEE Board of Directors, using the process in accordance with IEEE Bylaw I-300.4(5).

The MGA Secretary (or their designee) shall provide record-keeping and secretarial functions. In the absence of the Secretary, the MGA Board Chair shall appoint a MGA Board member to perform this task. The minutes need not be verbatim, but a summary of the actions with a reasonable amount of detail to ensure the intent of the action taken. A meeting summary will be distributed to all MGA Board members normally within two weeks after the meeting. In addition, the minutes will be distributed to all MGA Board members normally no later than 45 days after the meeting.

The MGA Secretary will maintain copies of all MGA Board meeting agendas, minutes, and committee meeting summaries.

### **C. LOCATION OF MEETINGS**

The meetings of MGA Board will normally be held in conjunction with the meetings of the IEEE Board of Directors. The number of regular MGA Board meetings during the year shall normally be three. Except in executive session, MGA Board meetings shall be open to all IEEE members.

1. Meeting Schedule Changes. Once scheduled, a meeting date or location may be altered or canceled only for sufficient cause by majority vote at a regularly constituted MGA Board meeting or by consent of a majority of MGA Board members secured by or transmitted to the Secretary, not less than 20 days before the original date or the new date set for the meeting, whichever is the earlier. Notice of such approved change shall be distributed to all MGA Board voting members not less than 10 days before the original or the new date of said scheduled meeting, whichever is the earlier.

2. Special Meetings. Special meetings of MGA Board may be called by the MGA Board Chair or by one-third of MGA Board voting members on notice to all other MGA Board members. Notice of such special meetings, giving the time and place of the meeting, the purpose of the meeting, and the names of the MGA Board voting members calling the meeting, shall be distributed to all MGA Board members not less than five days before the date set for the special meeting. For special meetings to be held by teleconference or similar communications equipment, notice shall be sent to all MGA Board members not less than 48 hours before the time set for the special meeting.
3. Meetings without Notice. A MGA Board meeting may be held without notice if waivers of notice signed by all MGA Board voting members are filed with the Secretary, with notation thereof entered in the minutes of the meeting.
4. Actions without Meeting. Unless otherwise provided in the Certificate of Incorporation or Constitution, or IEEE Bylaws, or the Not-for-Profit Corporation Law of the State of New York, any action required or permitted to be taken by the MGA Board may be taken without a meeting if all members vote unanimously on the action, with the vote to be promptly confirmed in writing. The written confirmation shall be filed with the minutes of the proceedings of the MGA Board.
5. Meetings by Telecommunications. The MGA Board may meet and act upon the vote of its members through any means of telecommunication. The normal voting requirements shall apply when action is taken by means of telecommunications equipment allowing all persons participating in the meeting to hear each other at the same time. Given these conditions, normal MGA Board meeting procedures will apply. All actions shall be ratified at a duly constituted meeting. Minutes of such meetings shall be distributed to all members.
6. Notice of Meetings. Notices of meetings and any other documents required to be sent to MGA Board members pursuant to provisions of the IEEE Certificate of Incorporation, IEEE Constitution, or IEEE Bylaws shall be sent by such routings as to ensure prompt delivery.
7. Actions of the MGA Board. In accordance with IEEE Bylaws, the vote of a majority of the voting members of the MGA Board present at the time of the vote, if a quorum is present at such time, shall be the act of the MGA Board.
8. Quorum. A majority of the voting members of the MGA Board, provided that a majority shall of the Region Directors are present, shall constitute a quorum.

#### **D. PROPOSED MGA BOARD AGENDA ITEMS**

Proposed MGA Board agenda items should be submitted electronically to MGA administration along with a cover sheet summarizing the proposed item. MGA administration will then forward the request to the MGA Board Chair for review and approval. Each item should be submitted with a cover sheet with the following information.

1. Action items require a summary of the item, the reason for its submission, the action proposed, and any supporting documentation. Financial implications to the MGA Board and the Regions must be included in every motion.
2. Discussion items require a summary of the item, including questions to be resolved in discussion, and any supporting documentation.

3. Information items require purpose and documentation whenever possible.
4. Reports and items should be submitted in written format via email or in electronic format to be included in the agenda.

## **2.11 VOLUNTEER RESPONSIBILITIES AND THE IEEE CODE OF ETHICS** \_\_\_\_\_

### **Responsibilities for Conduct and Professionalism**

IEEE members and non-members, carry out a very wide range of duties and responsibilities on behalf of IEEE and are required to familiarize themselves with IEEE policies, procedures, practices and expectations for conduct and professionalism.

### **Abiding by the IEEE Code of Ethics**

The conduct of all IEEE members and non-members should reflect the highest level of ethics and professionalism. The behavior of all those engaging in activities on behalf of the IEEE should reflect the best interests of IEEE members and other customers.

Each year, all IEEE members, through the membership renewal process, affirm their intention to abide by the IEEE Code of Ethics.

Nonmembers who are involved in IEEE activities are also obligated to abide by the IEEE Code of Ethics. Such obligation is communicated through the governing procedures for the relevant IEEE activity.

*For the purpose of this policy "non-member" relates to those non-members of IEEE who are involved in IEEE activities and includes IEEE staff.*

### **Conduct and Professionalism**

Members and non-members are expected to treat each other with respect, consideration and civility. Intimidating, demeaning, threatening behaviors, as well as destructive rumors or gossip, depart from the standard for civility and respect.

Members or non-members engaging in activities which are contrary to or in violation of the IEEE Code of Ethics, IEEE Code of Conduct, IEEE governing documents, IEEE Operations Manuals and other internal and external rules and regulations that affect the membership and activities of IEEE may be subject to discipline, up to and including expulsion from participation in IEEE activities and/or IEEE membership.

### **IEEE Procedures for Reporting Misconduct Complaints**

All members or non-members who believe they have been subjected to any behavior by any member or non-member that violates the above-mentioned policies and procedures should bring the matter to the attention of IEEE through the process described in IEEE Policy 7.10. Prompt reporting allows IEEE to review, assess, and take any necessary actions to address the complaint immediately.

Information on IEEE Policy 7.10 and the IEEE Ethics Reporting Line can be found at: <https://www.ieee.org/about/compliance.html>. The IEEE Ethics Reporting Line can be accessed directly at: <http://www.ieee-ethics-reporting.org> or +1 888 359 6323.

### **Scholarly Publication Misconduct**

Information relative to handling of allegations of scholarly publication misconduct is available in Section 8 of the IEEE Publication Services & Products Board (PSPB) Operations Manual. <https://www.ieee.org/content/dam/ieee-org/ieee/web/org/pubs/pspb/pspb-ops-manual.pdf>.

### **Standards Development Disputes**

Information relative to handling of disputes with respect to IEEE Standards Development is available in Section 6 of the IEEE Standards Association Operations Manual.

<https://standards.ieee.org/about/policies/sa-opman>

### **Conferences Disputes and/or Misconduct**

Information relative to handling of conference disputes can be found in IEEE Policy Section 10.1.3. Real-time behavioral misconduct should be reported to [eventconduct@ieee.org](mailto:eventconduct@ieee.org).

### **Society/Council-Society/Council Disputes**

Information relative to handling of Society-Society disputes can be found in Section 4 of the IEEE Technical Activities Board Operations Manual.

### **Geographic Unit Disputes**

Information relative to handling geographic unit non-compliance with the MGA Operations Manual can be found in Section 2.11 of the MGA Operations Manual.

## **A. CONDUCT AS AN OFFICER OR A MEMBER OF AN IEEE BOARD OR COMMITTEE**

Volunteers are expected to contribute to IEEE activities in a co-operative and constructive manner, to ensure that the best possible use is made of the time available, given that volunteers are usually able to offer IEEE their time and effort very sparingly. Meetings should be strongly focused on the business laid out in the agreed agenda, and not be impeded by irrelevant interventions. The chair has the prime responsibility for the conduct of the meeting, but the cooperation of all members present is also an important factor in ensuring that the business is conducted in a fair and harmonious manner.

## **B. CONFLICT OF INTEREST**

A common misunderstanding about “conflict of interest” is that it only applies where an individual attempts to obtain some monetary advantage by virtue of being an office holder. A broader view of the concept applies to any situation where some kind of advantage or privilege is being sought through the exercise of authority granted to an office holder. The guiding principle for volunteers is to follow IEEE policies, procedures, and practices, and be seen by their peers to be acting ethically in their decision-making.

## **C. ACCEPTANCE OF POSITION OBLIGATIONS**

Election or appointment of a volunteer to a position, such as a board or committee chair or member, Section or Chapter officer, Council officer, etc., implies that there is an expectation that the person will be willing and able to undertake assigned duties, and if appropriate, to attend the meetings of the organizational unit. Accepting a position also requires that the

volunteer is adequately prepared for the meetings, that agenda papers are read beforehand, and that any items from the previous meeting requiring action are properly followed up. If a person is unable to perform these or other assigned duties, the expected result is a resignation from the position.

#### **D. TRANSFER OF POSITION**

An orderly and regular turnover of board, committee, Section, and Chapter membership, including that of the officers, should be a routine feature of IEEE volunteerism. It ensures a healthy flow of new blood and invigorates all IEEE organizational units. Sections of this Operations Manual define the terms of office for volunteers involved with member and geographic activities and the procedures for their election or appointment. It is the responsibility of the MGA Board Chair to ensure that these practices are followed. It is a duty of all MGA officers, MGA committee Chairs, and Section/Council/Chapter officers to transfer all documents and other resources necessary for their successors to carry out their work effectively.

### **2.12 ADDRESSING GEOGRAPHIC ORGANIZATIONAL UNIT MEMBER AND VOLUNTEER COMPLAINTS**

---

#### **A. COMPLAINTS AND INQUIRIES**

The success of IEEE geographic organizational unit activities depends on the professional behavior of IEEE volunteers and compliance with the IEEE Bylaws, IEEE Policies, and the MGA Operations Manual. Compliance with these documents shall take precedence over local operating documents within the IEEE geographic organizational units. Unprofessional conduct and non-compliance with the policies and operational procedures that disrupts IEEE activities may bring consequences to the individuals involved, the organizational unit (OU), and all of IEEE.

MGA encourages individuals to make every attempt to resolve issues concerning compliance, management and procedural matters as outlined within the MGA Operations Manual with leaders in the local organizational units under the guidance of the appropriate Region Director. The Region Director or Section Chair, with the concurrence of the Region Director, shall provide the oversight for mediation, clarification, and recommendation for resolutions to address such issues. MGA Staff may be consulted for clarification on MGA and IEEE policies and procedures.

If satisfactory resolutions cannot be achieved or if assistance is needed beyond the geographic organizational unit leadership, individuals may use the IEEE Ethics Reporting Line detailed in Section 2.10.

#### **B. DISPOSITION OF COMPLAINTS RECEIVED FROM IEEE ETHICS REPORTING LINE**

Complaints may be placed within the IEEE Ethics Reporting Line. Once a complaint is placed within the system it is routed to the appropriate IEEE Organizational Unit or IEEE Unit to be addressed.

MGA will be assigned all complaints that include non-compliance with the MGA Operations Manual.

All ethics, misconduct or cases that include non-compliance outside of the MGA Operations Manual will not be routed to MGA. Any complaint received outside of the IEEE Ethics Reporting Line must be entered into the system for a formal review to be initiated. Any case that identifies an IEEE level sanction as a resolution or any case that cannot be resolved will be routed back to the IEEE level for review in the IEEE Ethics Reporting Line system. All cases will be administratively documented within the IEEE Ethics Reporting Line system.

Once a case is received in the IEEE Ethics Reporting Line and is assigned to MGA, the following processes will occur:

1. Upon initial review, for all cases that may be resolved at the local level, MGA Staff works in partnership with the appropriate Region Director in identifying resolution(s). Should the Region Director require additional guidance or if local resolution is not achieved, or if the case cannot be resolved within 30 days, the MGA Operations Manual Compliance Committee (MGA OMCC) shall be consulted to provide guidance and identify an appropriate resolution.
2. All cases that involve the MGA Board Chair, Past MGA Board Chair, MGA Board Chair Elect, MGA Treasurer, or any MGA Vice-Chair, Region Director, Committee Chair or Committee member for Committees listed in Section 4.0, and an alleged MGA Operations Manual violation will be automatically routed to the MGA OMCC.

MGA shall utilize the MGA Operations Manual Compliance Committee as outlined in Section 4.22.

### **C. CONSEQUENCES FOR NONCOMPLIANCE**

In the event of unprofessional behaviors or non-compliance of processes as set forth within the MGA Operations Manual, upon the recommendation of the MGA OMCC and with the consent of the Region Director and the MGA VP the MGA OMCC and MGA VP may impose consequences against that member or volunteer. These consequences may include:

1. An official reprimand. Such reprimand shall be in the form of a letter.
2. Suspension of the individual from participating within a specific set of MGA activities such as MGA meetings, conferences or other events for a specified time period.
3. Suspension from a volunteer position(s).
4. For all cases that require additional review, they shall be referred to the appropriate IEEE OU for additional proceedings.

## **3.0 MGA FINANCIAL MATTERS**

### **3.1 BUDGET CYCLE DATES**

Using a process established by the IEEE Finance Committee, an annual budget shall be prepared by the IEEE Member and Geographic Activities (MGA) Finance Committee for the ensuing year, subject to the endorsement by the MGA Board and approved as part of the annual IEEE Budget, which is approved by the IEEE Board of Directors.

Specific dates regarding the development of the budget shall be distributed and determined by the IEEE Finance Committee.

### **3.2 ADMINISTRATION OF MGA FINANCES**

#### **A. RESERVES**

Per the IEEE Financial Operations Manual, the MGA Board will try to maintain reserves of about 50% of annual expenses, exclusive of those dedicated to IEEE Sections Congress. The purposes of the reserves are to eliminate the need to place any contingency funds in the budget and to provide seed money for new initiatives.

#### **B. BUDGETS**

Committee chairs and MGA Board Vice Chairs are responsible for meeting their budgets. The MGA department will provide data monthly to the Vice Chairs containing available information relative to financial activities versus budget. Unbudgeted expenses (or income) shall be reported to the MGA Finance Committee as soon as possible.

#### **C. VICE CHAIR AND COMMITTEE BUDGETS**

MGA Board Vice Chairs are responsible for providing budget guidelines to the chairs of committees that report through them. This includes the budget cycle dates established by the MGA Finance Committee. Committee chairs are responsible for providing detailed proposed budgets to the Vice Chairs.

#### **D. EXPENSE REPORTS**

Expense reports for MGA Board members and MGA committee members must clearly identify the official function for which reimbursement is sought. Since there are often courtesy "invitations" to attend various meetings, it is the responsibility of the individual to ensure whether expenses will be covered by the MGA budget before incurring these expenses. Annually, the MGA Finance Committee will review and recommend the MGA Board endorsement of MGA Travel Expense Procedures.

In accordance with IEEE Policies, Section 11.6.B, for volunteer travel reimbursed by IEEE, business class fares are permissible, if the MGA organizational unit has funding available, and if the flying time is over eight consecutive hours for a single segment or over eight hours flying time where a layover is required. Approval by the MGA Board Chair and Treasurer must be obtained prior to an individual booking the flights.

### **3.3 SUPPORT OF MGA ACTIVITIES**

---

The MGA Board and the MGA department shall be supported by funds identified in the annual IEEE Budget, approved by the IEEE Board of Directors. Revenues specified in this budget may include:

1. The amount allocated to Regions, Sections, Chapters, Affinity Groups, and Student Branches will equal 12% of member dues, in accordance with IEEE Bylaw I-108.5.
2. A fixed component derived from a required Region and/or Section assessment paid by all members other than students, within that geographic organizational unit, as defined by IEEE Bylaws and IEEE Policies.
3. A variable or member choice component.
4. Other funds derived by the general sale of products and services offered from time-to-time or through other fund-generating activities.
5. Additional mandatory assessments for the support of MGA operations may be levied upon the members of a particular geographic organizational unit following approval by a majority of those voting in a vote of the members of that particular organizational unit, subject to MGA Board endorsement and approval by the IEEE Board of Directors in accordance with IEEE Bylaws.
6. The variable, member choice component, and general sale component shall be derived from voluntary fees for services and products provided by or through the MGA Board.

### **3.4 ADMINISTRATION OF GEOGRAPHIC UNIT ALLOCATIONS AND REBATES**

---

#### **A. REGION ALLOCATION FORMULA**

The Region Allocation Formula includes the following components:

1. Number of members (as of 31 December of prior year)
2. Number of Sections within the Region (as of 31 December of prior year)
3. The relative cost of travel within each Region

The percentage of members and sections are calculated by utilizing the prior years member and section numbers associated with each Region. The relative cost of travel is identified by the travel factor assigned to each Region. Each of these three components are then multiplied to obtain the amount allocated to an individual Region. The formula will be reviewed annually by the MGA Finance Committee.

Disbursements of individual Region allocations are made only after audit requirements have been met.

#### **B. GEOGRAPHIC UNIT REBATE SCHEDULE AND PROCEDURES**

All Operational Units (Sections, Subsections, Chapters, Affinity Groups, Geographic Councils and their active Chapters and Affinity Groups, Geo Units outside Sections, and Student Branches) in order to be eligible for the dues rebate are required to submit their:

1. Annual financial reports by the 28th of February, of each year
2. Annual officer reports by the 15<sup>th</sup> of March, of each year
3. Annual meeting reports by the 15<sup>th</sup> of March, of each year

The below table outlines the rebate allowances and requirements for eligible organizational units:

The Section Secretary and Treasurer or Secretary/Treasurer should verify that all required reports have been submitted on time, including all Subsection, Chapter, Student Branch and Affinity Group reporting. Exceptions for payment of the dues rebate to those units submitting the required reports after these deadlines shall be at the discretion of the Region Director, and a 10% penalty shall be applied to all such exceptions.

MGA cannot make additional Subsection, Chapter, Affinity Group or Student Branch subsidy payments for meeting activity reported at a later time; as such, the Section secretary should certify when submitting Section, Subsection, Chapter, Student Branch and Affinity Group meeting activity that all activity has been reported.

A Council must transfer the rebates to its subunits with approved bank accounts. For those subunits without a bank account a Council must be responsible for managing the rebates on behalf of its subunits.

The funds provided are intended for the support of not only the Section's activities, but also the activities of its subunits, including Subsections, Chapters, Affinity Groups, and Student Branches. The Section, Subsection, Chapter, Affinity Group Rebate and Student Branch Rebate go directly to the Section's bank account (either CB or Local). The Sections are responsible for distributing the Rebate to the Chapters, Affinity Groups, Subsections, and Student Branches respectively.

### **C. GEOGRAPHIC UNIT BONUS FOR TIMELINESS**

All Sections and Councils whom are the parent of active Chapters and Affinity Groups whose reporting (financial, meeting, and officer) is submitted by the third Friday in February, will receive a 10% bonus of the total rebate not including activity bonuses.

If the information submitted is not complete or contains errors, and if corrections are not submitted within 60 days of a written request, the 10% bonus will be forfeited. The written request provided by IEEE will clearly state what action is expected, the date by which it must be submitted, and the consequence if not submitted.

### **D. GEOGRAPHIC UNIT ACTIVITY BONUS**

In an effort to encourage activities at the local level, activity bonuses may be awarded as follows:

1. All Sections reporting 10 meetings or more, at least 5 of which must be of a technical nature, shall receive an additional US\$200.
2. All Subsections reporting 10 meetings or more, at least 5 of which must be of a technical nature, shall receive an additional US\$100.
3. A meeting jointly hosted by more than one IEEE geographical organization unit (Student Branch, Chapter, Affinity Group, Subsection, or Section) may qualify as a meeting for each, and will count toward the activity bonus of all units. All Chapters or Affinity Groups reporting 6 or more meetings shall receive an additional US\$75; in the case of a Chapter, at least 6 of the reported meetings shall be in the technical category.
  - a. Activity bonus funds are excluded from the 10% bonus for timely reporting.
  - b. All units must qualify for the timely reporting bonus in order to be eligible for an activity bonus.

## **E. NOTIFICATION OF REBATES**

The Section's subunits (Subsections, Chapters, Student Branches and Affinity Groups) will be notified about the amount to which their activities contribute to the rebate prior to the distribution of the rebate by 31 August.

## **F. SECTION REBATE**

Allowance: All Sections in existence for the entire year and that meet the minimum requirements shall receive a US\$2,000 annual allowance. For Sections formed during the year, these funds will be pro-rated from the date of establishment until 31 December.

6. For Sections formed from Subsections after 31 December, the current year's rebate for the new Section shall be based upon the terms of a written agreement between the officers of the parent Section and the new Section. The agreement will be developed in consultation with the Region Director. Such agreement will be based on the number of members in the new Section and shall be concluded prior to establishment of the new Section.

## **H. CHAPTER AND AFFINITY GROUP REBATE**

US\$200 for each Chapter and Affinity Group meeting minimum requirements in accordance with the following sections of the MGA Operations Manual:

- Section 9.6.J - Chapter Requirements for Membership and Meeting Activity

In accordance with the MGA Operations Manual, Sections 9.6.G and 9.9.G, "Chapters and Affinity Groups are entitled to receive the funds generated by their own activities, including dues rebates (earned during the preceding year as computed by the dues rebate formula)." In accordance with the MGA Operations Manual, Section 9.4.I.8, "Chapter and Affinity Group funds provided to the Section through the annual rebate are intended for the support of those subunits. Chapters and Affinity Groups shall be funded at a minimum at the level of the annual rebate."

## **I. STUDENT BRANCHES**

1. For maintenance of an IEEE Student Branch, Section Student Branch, or Joint Student Branch, upon timely receipt of the Student Branch Officer Reporting Form and the Student Branch Annual Plan, IEEE shall issue to each such Branch, for one calendar year, fifty dollars (US\$50.00) for Branches with fewer than fifty (50) IEEE Student Branch members and one-hundred dollars (US\$100.00) for Branches with fifty (50) or more IEEE Student Branch members.
2. A Student Branch shall be required to hold not less than four (4) activities per year. Upon timely receipt of the required Student Branch Activity reports, IEEE shall rebate to each such Branch, in good standing, US\$2.00 per Student Branch member and an additional US\$1.00 per Student Branch Chapter member based on membership count as of 31 December each year, this membership count shall include those students who joined and upgraded during the calendar year.
3. In the case of a Section Student Branch, this amount shall be paid to the Section sponsoring the Branch.

## **J. GEOGRAPHIC COUNCILS**

Geographic unit Councils, comprised of Sections, are not eligible for a rebate. Geographic Councils can receive only Chapter/Affinity Group rebates (US\$200/unit) for active Chapters and/or Affinity Groups. If the Council is the parent organization of a Chapter or Affinity Group, the Council will receive the rebate for the subunit(s) only, including the 10% bonus for timely reporting and activity bonus, if applicable. Councils receive no other rebate allowance; there is no additional allowance or payment per membership.

1. Financial activity: If a geographic Council has no bank accounts and no financial activity, the "General Information and Certification Schedule" forms should be completed and submitted along with a statement indicating there were no bank accounts and no financial activity for the year. If a Council has a bank account, with or without additional financial activity, a financial report must be submitted.
2. Meeting activity: If a Council has no Chapters or Affinity Groups, meeting reports are not required.
3. Officer reporting: A roster of current officers shall be submitted annually.

## **K. MEMBERS AND GEOGRAPHIC UNITS OUTSIDE SECTIONS**

For those members and geographic units that do not belong to an actual Section, the Region to which they belong acts as their parent. In its role as parent, the Region shall receive:

1. The Allowance as defined in the Geographic Unit Rebate Schedule, as long as the number of members is not fewer than 50.
2. The Membership rebate as defined in the Geographic Unit Rebate Schedule.
3. The rebates appropriated for each geographic unit outside of Sections, based on meeting activity and compliance with financial and officer reporting requirements, shall be distributed to the respective geographic units.

## **L. MEMBERS AND GEOGRAPHIC UNITS OUTSIDE SECTIONS**

To be eligible for a rebate, Sections must provide current officer, financial, and meeting/activity reports based on the following requirements. Units are advised that utilizing online reporting options will result in faster processing and release of the Section rebate.

1. Current officer report: Reports of current Section, Subsection, Chapter, and Affinity Group officers must be submitted within 20 days following the election and/or appointment of such officers using the electronic reporting tools provided by MGA. These reports must be updated during the year whenever officers change, including those who have been re-elected or re-appointed to another term.
2. Financial report: A financial report summarizing the previous year's financial activities must be submitted annually using the designated online financial reporting accounting software. If the Section is unable to obtain financial records from a Subsection, Chapter, or Affinity Group, it may opt to submit a statement that the subunit has failed to submit a timely financial report and waive its right to a rebate for that particular subunit. Delinquent subunits may be subject to probation or even dissolution.
  - a. Bank signature card: The bank signature card(s) must be returned to the IEEE Operations Center for the signature of the IEEE Senior Director – Financial Services before the Section rebate will be released. This is required for all bank accounts for Sections and their subunits within the US, and those units outside of the US where banking and legal restrictions will allow. The Section rebate will not be released until all signature cards for the Section and, if applicable, its Subsection(s), Chapter(s), Student Branches, and Affinity Group(s) have been received at the IEEE Operations Center. Councils are also required to comply with this policy for the Council's bank account and that of any subunits.
  - b. An exemption from the signature card requirement may be requested from the Region Director. Exemptions may only be granted due to local, state, or federal banking laws, and regulations prohibiting the signature of the IEEE Senior Director or where the requirements would be prohibitive. To obtain the exemption form, send an email to [Finance-Solutions@ieee.org](mailto:Finance-Solutions@ieee.org).

- c. If a Section or subunit has not changed officers and the IEEE Senior Director's signature is already on the signature card, a new signature card is not required.
3. Meeting Activity Report(s): Meeting activity reports are key to unit maintenance and viability. Eligibility requirements shall be met in accordance with the MGA Operations Manual, Section 9.4.L – Section Reporting Requirements. To facilitate accurate reporting, a meeting reporting form should be submitted, via the electronic communication tool provided by MGA, for each meeting and include the information requested in the form fields.

1. Meetings shall occur at the call of the committee chair. Provisions shall be made in the MGA budget for expenses incurred in the work of all MGA committees.
2. It is recommended that each MGA committee have one face-to-face meeting during the year and they should take place independently of the IEEE meeting series.
3. A majority of the voting members of the committee shall constitute a quorum.
4. The vote of a majority of the votes cast, provided a quorum is present, shall be the act of the committee. **8.3 GENERAL SPECIFICATIONS FOR THE ESTABLISHMENT OF NEW AWARDS \_\_\_\_\_**

**A. GUIDANCE FOR THE ESTABLISHMENT OF NEW AWARDS**

All proposals must be submitted using the MGA Awards Template found at: <https://mga.ieee.org/awards>. Completed proposals which have been approved by the appropriate responsible body of the Committee or geographic organizational unit involved should be submitted to the MGA ARC Chair at [mga-awards@ieee.org](mailto:mga-awards@ieee.org).

All proposals submitted on the template shall include:

Background. A cover letter describing the background for the new award or revision and any committees who endorsed the proposal previously.

Description. Award specifications should be unambiguous and nonconflicting with existing awards. The award should stimulate outstanding achievement. A need for continuity of the award should be shown and the frequency of consideration. The title of the award and the sponsor should be stated. The title should also reflect award and purpose, when appropriate. For example, the IEEE Section 200x Science Fair Prize in Engineering, the IEEE Section Memorial Scholarship in honor of J.C. Doe, or IEEE Region # Outstanding Volunteer Leadership Award.

Administration. Specify the organizational units or unit responsible for administering the award or scholarship. Where a third-party is used for any part of this responsibility, details of the agreement between the IEEE organizational unit and the third-party should be clearly set forth and made a part of the proposal by reference or otherwise.

Eligibility. Be very specific as to the parameters such as who may apply, if IEEE or Society membership is required, age, level of accomplishment, e.g., grade requirements; or other limitations, restrictions, or affiliations not otherwise prohibited or in violation of the non-discriminatory objectives of IEEE.

Prize Items. Identify specifically what the educational award or scholarship will consist of, such as cash award, certificate, plaque, featured publication, etc. If multiple awards are permitted, specify the manner of prize sharing. The prize should be well intentioned, meaningful, and appropriate to the purpose of the award. Scholarships in particular should be appropriate to both the goals of the sponsor and the probable needs of the recipient.

Funds. State source of funds, assurance of fund continuity. Identify how the funding programs are managed and by whom.

Nominee Solicitation. Detail plans and procedures used to solicit nominees. If other bodies are involved, explain how they are involved.

Award or Scholarship Committee. Identify membership, term of service, procedures for selection of members, responsibilities, etc. If other bodies are involved, explain how does IEEE exercise influence and control.

Schedule. State schedule for submission of nominees, applications, committee meetings, approval meetings, notification of recipient, annual or periodic award, etc.

Selection Process. Outline how the selection process is to be accomplished, e.g. scoring, voting, or other procedures. State all the factors to be considered. When recurring awards and awards of a substantive amount are concerned, continuity, expertise, and the capability for addressing the objective should be factors.

Presentation. State preferred method of presentation including location and schedule for award presentation. Indicate if the recipient has a preference of location and time.

Publicity. Publicity as may be appropriate and available. For example, IEEE publications, feature publication, or the local paper.

Any other information useful to the MGA ARC in reviewing this proposal can be included. Such information may also include other similar awards of the organizational unit, what stimulated this proposal, and any unique aspects related thereto.

## **10.0 CONFERENCES**

The objective of a conference is to provide a forum for the communication of advancements in the field of the conference, both through formal paper presentations and informal discussions. All IEEE conferences are to be governed according to the policies contained within IEEE Policies Section 10 which is located at [https://www.ieee.org/documents/ieee\\_policies.pdf](https://www.ieee.org/documents/ieee_policies.pdf).

This section of the MGA Operations Manual is consistent with IEEE Policies Section 10, and includes additional content that is specific to MGA organizational units.

The IEEE Member and Geographic Activities (MGA) Board encourages the formation of new conferences and the participation of geographic organizational units in existing conferences. In support of IEEE's commitment to enhancing transnational participation in IEEE meetings, MGA and its geographic organizational units may organize and sponsor meetings, seminars, symposia, conferences, and other educational and scientific programs to benefit the public on matters related to the interests of IEEE members.

IEEE Meetings, Conferences & Events (MCE) provides additional information and resources for conference organizers at [http://www.ieee.org/conferences\\_events](http://www.ieee.org/conferences_events).

### **10.1 PURPOSE OF CONDUCTING A CONFERENCE**

---

The prime objective of IEEE conferences is to provide IEEE members, other individuals and organizations with information and exhibits to assist in the advancement of electrical and electronics engineering and the related arts and sciences.

To accomplish this objective, the IEEE shall:

- A. Encourage Conference Steering and/or Organizing Committees to develop programs suitable to the needs of attendees, speakers and other participants for which each conference is intended.
- B. Encourage all IEEE organizational units to conduct conferences, which should benefit the interests of IEEE membership and the greater technical community.
- C. Encourage cooperation between organizational units to promote, plan, organize and schedule conferences and exhibitions in a timely fashion within the stated field of interest.

### **10.2 TYPES OF CONFERENCES**

---

Refer to IEEE Policies, Section 10.0, for the defined types of meetings which include Conferences, Symposia, Workshops, Tutorials, Short Courses, Expositions, Conventions, Standards Meetings, Administrative Meetings, Section/Chapter Meetings, Student Activities and Other.

### **10.3 CONFERENCE BUDGETS**

---

A detailed conference budget should provide all needed financial information, clearly indicate the extent of participation of each organizational unit, and be consistent with analysis of the attendance and financial results of any preceding conference on the same subject. Conference Chairs shall submit budgets to the sponsoring organizational unit(s) as

far in advance as is feasible, but at least in time for the sponsoring organizational unit(s) to meet the requirements of IEEE Policies, Section 10.1.4.

Refer to IEEE Policies Section 10.1.6 for detailed information concerning conference budget requirements. Additional content concerning this topic can also be found at [https://www.ieee.org/conferences\\_events/conferences/organizers/managing\\_conference\\_finances.html](https://www.ieee.org/conferences_events/conferences/organizers/managing_conference_finances.html)

## **10.4 CONFERENCE INVOLVEMENT**

---

Sponsorship relates to the responsibilities and accountabilities of an organizational unit with respect to financial, technical, publicity, and administrative aspects of a conference. For a conference to be considered an IEEE conference, it must be sponsored by at least one IEEE organizational unit. If multiple organizational units are sponsoring a conference, at least one of the organizational units must be an IEEE organizational unit.

An IEEE organizational unit is defined in the IEEE Bylaw I-107 as a subset of the entire IEEE membership that has been formed to carry out particular educational, geographic, professional, technical, or other appropriate activities of interest and service to those who are members of that organizational unit as permitted by law. Each IEEE organizational unit shall be an integral part of the IEEE and not a separate organization. Therefore, IEEE organizational units include but are not limited to Boards, Societies, Regions, Areas, Sections, Chapters, Councils, Student Branches, Student Branch Chapters, Affinity Groups and Committees.

IEEE organizational units engaged in conference sponsorship may not enter into any type of sponsorship arrangement with a "For Profit" organization. Non-compliance with the provisions of this approval policy may result in denial of approvals for subsequent events. "For Profit" organizations can, however, provide donations, as indicated in IEEE Policies, Section 10.1.23.

The three types of conference sponsorship available to IEEE organizational units are described below:

### **A. SOLE SPONSORSHIP**

Sole sponsorship indicates full and sole organizational unit involvement in a conference. If an IEEE organizational unit agrees to sponsor a conference, they accept complete responsibility for the technical, financial, publicity and administrative aspects of the conference. As a result of sole sponsorship, the organizational unit:

- will approve the conference as indicated in IEEE Policies, Section 10.1.4, and in this MGA Operations Manual, Section 10.5.D & E.
- will receive the surplus or be liable for any deficit resulting from a conference, (IEEE Policies, Section 10.1.9).
- will be responsible for assuring the timely resolution of any legal issues.
- will be responsible for issuing any loans that the conference might need and assuring subsequent repayment, (IEEE Policies, Section 10.1.7).
- will be responsible for proper usage of the IEEE name (IEEE Policies, Section 10.1.6) and the IEEE logo, (IEEE Policies, Section 10.1.17).
- Conferences where the IEEE has sole sponsorship, the rights to the conference name, slogan, copyright for publications, Internet domain, and/or logo are owned by IEEE and not Conference Steering and/or Organizing Committees.

## **B. FINANCIAL CO-SPONSORSHIP**

Financial Co-Sponsorship indicates a shared involvement among several organizations, one of which is an IEEE organizational unit. Other co-sponsoring organizations could be IEEE organizational units or other "Not-for-Profit" non-IEEE organizations.

Financial Co-Sponsorship indicates a shared and significant involvement in the technical, financial, publicity and administrative areas of the conference. The relationship between sponsoring organizations should be explicitly defined in terms of a Memorandum of Understanding, see IEEE Policies, Section 10.1.5.

As a result of financial co-sponsorship, the organizational unit:

- will approve the conference as indicated in IEEE Policies, Section 10.1.4 and as per this MGA Operations Manual, Section 10.5.D & E.
- will receive the surplus or be liable for any deficit resulting from a conference, (IEEE Policies, Section 10.1.9).
- will be responsible for assuring the timely resolution of any legal issues.
- will be responsible for issuing any loans that the conference might need and assuring subsequent repayment, (IEEE Policies, Section 10.1.7).
- will be responsible for proper usage of the IEEE name (IEEE Policies, Section 10.1.6) and the IEEE logo (IEEE Policies 10.1.7).
- will be responsible for ensuring that the IEEE organizational unit is provided with the option of a no cost exhibit booth, exhibit table or other means of promoting IEEE membership and activities during the conference (IEEE Policies, Section 10.1.5).

## **C. TECHNICAL CO-SPONSORSHIP**

1. Technical Co-Sponsorship indicates direct and substantial involvement by the IEEE organizational unit solely in the organization of the technical program. The IEEE organizational unit has no financial involvement in the conference. The organization that has financial sponsorship of the conference must be explicitly identified in the supporting documentation and promotional material for technical co-sponsorship-to be granted. Technical co-sponsorship-requires specific approvals as indicated in General Approvals, Endorsements, & Notifications – Organizational Unit Approval (IEEE Policies, Section 10.1.4) and as per this MGA Operations Manual, Section 10.5.D & E.

The IEEE organizational unit should encourage members to submit papers and attend the conference. The IEEE organizational unit may assist in publicity through the availability of the appropriate IEEE organizational unit mailing lists and on the organizational unit's website. The relationship between sponsoring organizations shall be explicitly defined in terms of a Memorandum of Understanding (MoU) (IEEE Policies, Section 10.1.5). Technical co-sponsorship does not guarantee that the papers accepted for presentation at the conference will be eligible for inclusion in the IEEE Conference Publications Program (CPP), which handles post-conference distribution of conference papers in all media. Inclusion in the CPP should be specifically addressed in the MoU regulating the technical co-sponsorship, with the concurrence of the CPP staff. The IEEE name may not be used in the conference title (IEEE Policies, Section 10.1.16), but, the IEEE brand/logo and/or IEEE organizational unit brand/logo may be used in conference publications and promotional materials (IEEE Policies, Section 10.1.17). The non-IEEE organization shall provide the IEEE organizational unit

with the option of a no cost exhibit booth, exhibit table or other means of promoting IEEE membership and activities during the conference (IEEE Policies, Section 10.1.5).

2. For any technically co-sponsored conference in which there is no (0%) IEEE financial interest the MGA co-sponsor shall arrange (via an approved MoU) for recovery of IEEE operation costs in the form of TCS fees. Effective for conferences for which the creation of the MoU starts after 1 January 2018 and before 31 December 2022, the fees are \$1000 per event plus \$15 for each paper that is optionally published in Xplore. For conferences for which the creation of the MoU starts after 1 January 2023, the fees are \$1450 per event plus \$22 for each paper that is optionally published in Xplore. As an exception to this general policy, MGA will continue to pay those fees if the external (non-IEEE) financial sponsor has a National Society Agreement with IEEE or has a Sister Society Agreement with one or more of the IEEE Societies.

#### **D. CONFERENCE SPONSORSHIP APPROVAL AND CROSS ENDORSEMENT**

MGA organizational units that report to a Section, and those that report directly to a Region in the case when a Section is not formed, must obtain Executive Committee (ExCom) approval from their MGA organizational parent (Section / Region) for all conference sponsorship types and plans. Conference sponsorships planned by a Geographic Council or Council subunit must receive approval from the Council ExCom.

A Geo-Unit ExCom's approval of a sub-unit's conference sponsorship includes an acknowledgment of on-going responsibility and accountability for the financial, technical, publicity, and administrative aspects of the conference.

MGA organizational units that plan to sponsor a conference outside of their established geographic territory, as well as any conference sponsored by a Council or a Council subunit, must obtain the cross endorsement of the Section ExCom from the geographic territory in which the event is planned, or from the Region ExCom when a conference is to be conducted in a territory that is outside of a currently formed Section.

#### **E. EXCOM APPROVAL AND CROSS ENDORSEMENT**

Section or Council ExCom (voting member) approval and Section ExCom cross endorsement decisions shall be reported and provided to conference sponsors by two of the following ExCom representatives; Chair, Treasurer or Secretary (ExCom Vice Chair or Activities Chair shall substitute if the designated ExCom representative(s) also holds the position of conference chair, co-chair or treasurer for the respective event). Officer information is drawn from the Geographic Roster.

The Region Director and Region Conference Coordinator shall be required to report on approval of conference sponsorship and cross endorsement requests for MGA organizational units reporting directly to a Region (Vice Chair, Secretary and Treasurer shall substitute if the designated ExCom representative(s) also holds the position of conference chair, co-chair or treasurer for the respective event).

If a conference sponsorship or cross endorsement approval request is being denied, the reporting ExCom member must provide the conference sponsor with specific reason(s) for the rejection.

## **F. APPEALS PROCESS**

If the requested ExCom approval or cross endorsement is denied, giving specific reason for rejection of the conference, IEEE conference sponsorship will be rejected. Within 15 days of a rejection, the IEEE conference sponsor(s) can file an appeal to the IEEE Region Director who presides over the territory that encompasses the location of the conference, with copy to the respective Region Conference Coordinator. The review and decision process is expected to be completed within 30 days of the appeal. The decision of the Region Director shall be final.

### **10.5 ORGANIZING A CONFERENCE**

---

In order to conduct a successful conference a number of working committees should be organized under the direction of the Conference Committee

- Program Committee
- Publications Committee
- Publicity and Public Relations Committee
- Finance Committee
- Audit Committee (as required)
- Exhibits Committee (when needed)
- Local Arrangements Committee
- Registration Committee
- Awards Committee (if appropriate)

Additional information concerning the organizing, planning and scheduling of a IEEE Conference can be found at [http://www.ieee.org/conferences\\_events](http://www.ieee.org/conferences_events).

### **10.6 CONFERENCE FILING INFORMATION**

---

As soon as possible – but no later than 12 months before the conference – an IEEE conference application should be submitted to IEEE MCE at [http://www.ieee.org/conferences\\_events/conferences/organizers/conf\\_app.html](http://www.ieee.org/conferences_events/conferences/organizers/conf_app.html).

The submission of a conference application must allow adequate time for all contracts and/or sponsorship plans to be properly reviewed and approved by appropriate IEEE organizational unit(s).

### **10.7 INSURANCE FORMS**

---

Conferences are responsible for obtaining insurance coverage for the conference and associated events. IEEE can provide such coverage as stipulated in the IEEE Finance Operations Manual FOM.5 which is located at [https://www.ieee.org/documents/financial\\_ops\\_manual.pdf](https://www.ieee.org/documents/financial_ops_manual.pdf)

Additional information concerning the IEEE Conference Insurance Program is located at [https://www.ieee.org/about/volunteers/risk\\_insurance/conference\\_insurance.html](https://www.ieee.org/about/volunteers/risk_insurance/conference_insurance.html)

### **10.8 COOPERATION OF TECHNICAL/PROFESSIONAL & GEOGRAPHIC ORGANIZATIONAL UNITS IN CONFERENCES**

---

Successful conferences are based on the strong cooperation of both technical/ professional and geographic organizational units. Such cooperation is crucial to the success of all IEEE

conferences. If both technical/professional and geographic organizational units are involved in the organization of the conferences as early as possible – preferably before any arrangements have been made – it may be able to ensure that activities are run smoothly and that volunteers are available to assist in running the conferences. Such involvement should precede the selection of the conference location.

## **10.9 MEMORANDUM OF UNDERSTANDING/AGREEMENT (MoU/MoA) \_\_\_\_\_**

A Memorandum of Understanding/Agreement (MoU/MoA), sets forth the relationship and obligations of the involved parties. A MoU/MoA is required when two or more organizational units agree to provide co-sponsorship or technical co-sponsorship/technical cooperation to a conference. These organizational units may be all IEEE organizational units or IEEE and non-IEEE organizations as indicated in IEEE Policies, Section 10.1.2. Authorization to approve a MoU/MoA shall reside with the appropriate approving organizational unit as indicated in General Approvals, Endorsements, & Notifications – Organizational Unit Approval (IEEE Policies, Section 10.1.4).

Each MoU/MoA shall be negotiated and finalized at least six (6) months in advance of the conference, and shall include the terms and conditions set forth in the application form, including the following:

- Financial sponsorship and responsibilities of each organizational unit. These arrangements are needed for both liability and surplus distribution purposes (IEEE Policies, Section 10.1.9 and 10.1.27).
- Ownership of the Intellectual Property associated with a conference including use of the conference name, slogan, copyright for publications, and/or logo ownership.
- A clause specifying whether the conference proceedings will be submitted to the IEEE Conference Publications Program (CPP), which includes posting of the proceedings in IEEE's electronic database of articles (IEEE Policies, Section 10.1.27).
- Provisions for dissolving the relationship.
- Compliance with IEEE and other non-IEEE organization policies.
- Assignment of conference management and other administrative responsibilities to the appropriate organizational units.
- General conference management accountabilities such as assignment of chairs, organizational unit chairs for Conference Organizing Committees, steering committee obligations, location of the conferences, associated exhibitions, etc.
- How the IEEE organizational unit will be directly and substantially involved in the technical program.
- The technical paper review process, including a clear identification of the level of paper review, if the conference proceedings will be submitted to the IEEE Conference Publications Program (CPP).
- Provisions ensuring the non-IEEE organization supplies the IEEE organizational unit with an option to promote IEEE membership and activities at no cost during the conference. If the conference has an associated exhibition, the IEEE shall be provided with the option of having an exhibit booth. If the conference does not include an associated exhibition, the IEEE shall be provided with the option of having an exhibit table or other means of promoting the IEEE.

When a conference is sponsored jointly with another non-IEEE organization, the IEEE organizational unit shall assure that the IEEE financial responsibility is limited to the IEEE organizational unit's financial capabilities and does not extend to IEEE's corporate resources.

## **10.10 CONFERENCE PUBLICATIONS**

---

Conferences typically produce proceedings that are provided at the conference to attendees and/or are available for sale after the conference. Ownership of these publications is determined by copyright.

Refer to IEEE Policies Section 10.1.20 for detailed information concerning Conference Publications.

## **11.0 MGA PUBLICATIONS**

### **11.1 OBJECTIVES OF GEOGRAPHIC ORGANIZATIONAL UNIT PUBLICATIONS**

1. The purpose of IEEE publications is to further the aims of IEEE with respect to advancing the theory and practice of electrical and electronics engineering and related arts and sciences throughout the world; enhancing the professional standing of its members; and promoting the constructive utilization of technology for the public welfare. Region and Section publications are important vehicles for exchange of information and interaction among members in the Region/Section area. These publications meet the technical, professional, and informational needs of membership, which may be specific to the geographical area.

The IEEE Member and Geographic Activities (MGA) Board may authorize newsletters, periodicals, magazines, proceedings, and other publications, as it may deem necessary for effectively disseminating and publicizing its activities. The MGA Board shall abide by the existing policies and procedures as established by the Publication Services and Products Board (PSPB) and referenced in IEEE Policies.

2. Objectives of the Region/Section publications include:
  - Enhancing communication among members, and between IEEE and its members.
  - Acting as an educational force in developing the technical capabilities of members.
  - Presenting, in appropriate publications, information on matters of professional and societal concern to the membership in the geographical area.
  - Disseminating information among members about important technical achievements and developments from institutions and industries in the Region/Section.
  - Bringing out publications of archival value covering important technical developments and achievements from institutions and industries in the Region/Section.
  - Publishing important papers or talks, including applications oriented information, presented at the Region/Section meetings.
3. Any Region or Section may issue a local publication. A group of contiguous Sections or Regions may also issue a common or joint publication. The organizational unit (Region/Section) responsible for the publication shall inform the MGA Board, accordingly, and shall provide copies of such publications to IEEE headquarters as published. The objectives of such publications shall be consonant with the objectives of IEEE.
4. A Region/Section publication may be a newsletter and/or a journal/magazine. Information carried in a newsletter is not expected to be archival, whereas magazines/journals have archival value.
5. Before a Region/Section publication is approved and initiated, the organizational unit responsible must ensure that there is a proper financial plan and that necessary financial and other support is available for the publication. In addition, the organizational unit

responsible must also appoint a suitable editorial committee and/or publications committee, does not apply to a newsletter, to insure a smooth publications operation. The members responsible for bringing out the publication (whether in an editorial capacity or some other capacity) must be cognizant of the policies and procedures, which are applicable to all IEEE publications. For this purpose, IEEE Policies must be consulted.

6. All IEEE publications, including Region/Section publications must carry the IEEE logo and the words "IEEE" in the title of the newsletter/magazine/journal. Guidelines covering the use of the IEEE logo and the word IEEE are given in the PSPB Operations Manual.
7. IEEE journals/magazines, including those published by Regions/Sections contain material of archival value. IEEE copyright policies and procedures applicable for publication of such material are outlined in IEEE Policies, Section 6.3.1 – IEEE Copyright Policies, and the PSPB Operations Manual.
8. Region/Section publications may carry socio-technical material of interest to members. Publication of such material must adhere to IEEE policies and procedures on presentation of socio-technical material. Guidelines for presentation of socio-technical material are given in the PSPB Operations Manual.
9. Advertising is permitted in the Region/Section publications. Guidelines and requirements to be followed with regard to advertisements carried in the Region/Section publications are listed in the PSPB Operations Manual.
10. General guidelines for the publication of newsletters by Regions/Sections are given in the PSPB Operations Manual. Magazines or journals published by Regions/Sections are expected to contain at least 60% material, which has archival value. A Region/Section magazine must be normally published at least four times every year. General guidelines for publication of magazines and journals by Regions/Sections are given in the PSPB Operations Manual.
11. Second class mail facility can be utilized for distribution of IEEE publications within the United States provided certain minimum requirements are met. Regulations concerning use of second class mail facility for IEEE publications within the United States are listed in IEEE Policies, Section 6.5. - Second Class Mailing Permits. For other countries, the local post office may be consulted to obtain information regarding provisions for use of reduced rate postage for mailing IEEE publications.

## 12.0 REVISIONS TO THE MGA OPERATIONS MANUAL

### 12.1 OPERATIONS MANUAL REVISIONS

Proposed changes to the IEEE Member and Geographic Activities (MGA) Operations Manual and the reasons therefore shall be distributed to all voting members of the MGA Board at least fifteen (15) days before the stipulated MGA Board meeting at which the vote shall be taken. A majority of the votes cast of the members present at the meeting shall be required to approve any new MGA operation guideline revision or to amend or revoke any existing MGA operation guideline. The MGA Operations Manual will be forwarded to the IEEE Board of Directors for information purposes.

Certain updates to this MGA Operations Manual may be made without MGA Board approval. These changes shall be limited to:

- administrative, formatting, and grammatical changes
- changes to reflect updates to other IEEE governing documents, including but not limited to IEEE Bylaws, IEEE Policies, and the Finance Operations Manual
- changes to reflect updates to formal processes or procedures approved by the IEEE Board of Directors or the MGA Board

MGA staff will report these changes to the MGA Board.

Additionally, the IEEE Board of Directors has identified that changes related to specific responsibilities directed to the major organizational units shall be reviewed and approved by the IEEE Board of Directors using the process in accordance with IEEE Bylaw I-300.4(5). The following chart indicates the sections of this manual for which the MGA Board is responsible, which shall follow that process, and for which review and consent shall be obtained by additional Major Boards or committees, as indicated, prior to submission to the IEEE Board of Directors.
