

OU Analytics for your Volunteer Role

A new "Select OU for your Volunteer Role" filter has been added to [OU Analytics](#) dashboards. This new filter allows volunteers to select the OU based upon the position they hold. If a volunteer holds two roles, both OUs will be provided in the filter for specific selection. Volunteers should first select the OU of the data they wish to access before making other filter selections or reviewing content. Once a selection is made, the member view will automatically filter on that criteria and customize the dataset correctly. The additional filters on each dashboard should continue to be used to refine data accordingly. Please click the link below to view a screenshot of this new feature.

IEEE OU Analytics

Memberships, Subscriptions, and More - Product Dashboard

This dashboard provides interactive views for memberships, communities, councils, online libraries, and periodicals. Product Type of "Memberships" is preselected.

- Refine data through filters or click within a visualization to view results and details.
- Hover over a visualization to display a tooltip with statistical facts.
- **Important:** Choose an OU from "Select OU of your Volunteer Role" filter to view customized results for your OU position.

Select OU of your Volunteer Role (All)	Product Type Memberships	Product Name (All)	Region (All)	Grade (All)	Status Active
