

IEEE OU Analytics

Doublet

This grid provides the count of overlapping memberships/participations between IEEE Societies, Technical Communities, Technical Councils, IEEE Consultants Network, Standards Association, Women in Engineering and Young Professionals. Counts displayed represent the intersection between the two organizational units.

- Refine data by selecting Primary and Secondary Product Type to view results. You can also filter for two specific OUs by further selecting titles in both Primary and Secondary "Product Name" filters.
- Download options are available by clicking "Download" in upper right corner.
